About Cognizant

Founded in 1994 as a technology development arm of The Dun & Bradstreet Corporation, Cognizant spun off as an independent company in 1996, and have worked closely with large organizations to help them build stronger businesses ever since. Today, Cognizant engineers modern businesses to improve everyday life, helping some of the world's most established companies remain the most loved brands. In today's fast-changing technology landscape, cognizant work with our clients to advance every aspect of how they serve their customers: digitizing their products, services and customer experiences; automating their business processes; and modernizing their technology infrastructures. The company has 344,400 employees globally, of which over 200,000 are in India across 10 locations with a plurality in Chennai.

Cognizant has been ranked #3 on LinkedIn's top companies list 2024 and ranked #19 by Fortune Modern Board 25 in the month of June 2023. Cognizant also ranked # 463 by Forbes World Best Employer in 2022 and ranked # 589 Forbes Global 2000 in the year 2023.
