## About EPAM

EPAM Systems India Private Limited, is a fully owned subsidiary of EPAM Systems, Inc. Founded in 1993. Since 1993, EPAM Systems, Inc. (NYSE: EPAM) has leveraged its advanced software engineering heritage to become the foremost global digital transformation services provider – leading the industry in digital and physical product development and digital platform engineering services. Through its innovative strategy; integrated advisory, consulting, and design capabilities; and unique 'Engineering DNA,' EPAM's globally deployed hybrid teams help make the future real for clients and communities around the world by powering better enterprise, education and health platforms that connect people, optimize experiences, and improve people's lives. In 2021, EPAM was added to the S&P 500 and included among the list of Forbes Global 2000 companies.

## Job Summary:

As an Engineer You will begin your professional journey going through training for 4-6 months and transitioned to projects. You will be responsible for developing high-quality software solutions, participating in all phases of the software development lifecycle, and supporting other team members in achieving project goals. The ideal candidate will have a strong background in software engineering and be able to work independently and collaboratively to deliver results.
