Prestashop <> Hyperswitch Plugin: $2000

About Hackathon

Hyperswitch is an open-source product from Juspay. We're building a payments orchestration platform that simplifies how businesses handle transactions. With our solution, merchants can easily integrate multiple payment processors and manage their entire payment process from a single interface.

What Happens on Demo Day?

On Demo Day, shortlisted and submitted participants will present their plugins, demonstrating functionality and handling of edge cases. After the demos, winners will be announced within 5 business days.

All shortlisted candidates will receive Hyperswitch goodies.

How to Participate

1. Star our Repo on Github & Follow us on Twitter
2. Sign Up: Fill out the registration form to be eligible. You can participate individually or in teams of up to 4 members.
3. Submit Your Approach: Work on a solution approach and submit it by October 19th, 2024.
4. Shortlisting: The Hyperswitch team will review your submission and notify shortlisted candidates via email within 2-3 business days.
5. Develop the Solution: If shortlisted, you will have to complete your solution by 31st October 2024.
6. Final Submission: Once your solution is ready, submit it before October 31st, 2024 via the provided submission form.
7. Demo Day: We will reach out with Demo Day details. Be prepared to showcase your plugin's functionality and ensure all edge cases are addressed.
8. Hacktoberfest Tagging: The 3 winners—one for each plugin—will raise a Pull Request (PR), which will be tagged hacktoberfest-accepted to qualify for Hacktoberfest.
