About Amadeus:

Amadeus Labs was founded in Bengaluru to extend Amadeus' Engineering and R&D activities in the Asia-Pacific region. Within no time, we have emerged as the employer of choice for the young Indian workforce and play a critical role in product development globally.

At the heart of this excellence is a dynamic, multicultural team that now consists of well over 2500 individuals where the best minds in the business work on developing innovative products and solutions to accelerate the travel industry making every traveler's journey seamless, connected and delightful.

Amadeus have been certified a great place to work 4 years in a row until 2020 and been named amongst the Top 75 IT ITES organizations in India. In 2020, Amadeus won the prestigious Zinnov Award for Unlocking Centre Value Engineering R&D and became a Certified Top Employer 2022. Amadeus Labs recently won the NASSCOM GCC Award 2021 for the category exemplary value add, which testifies our value of delivering excellence.
